

The screenshot shows the Visual Studio Code interface with the following details:

- Explorer:** Shows the project structure for "FIGMA-HACKATHON-3". The "header.tsx" file is selected.
- Editor:** Displays the code for "header.tsx". The code defines a Header component that returns a flex container with a logo, navigation, and a main content area with a welcome message and a "Shop Now" button.
- Terminal:** Shows the output of a build process, indicating successful compilation of "cart" and "checkout" pages.

The screenshot shows the Visual Studio Code interface with the following details:

- Explorer:** Shows the project structure for "FIGMA-HACKATHON-3". The "page.tsx" file is selected.
- Editor:** Displays the code for "page.tsx". The code defines a Home component that includes a Header, CompanyLogo, FeaturedProducts, HotCategory, and TopCategories.
- Terminal:** Shows the output of a build process, indicating successful compilation of "cart" and "checkout" pages, along with requests for favicon.ico and global.css.
